

# Pringle, Glenn-Gibson, Claggett, and Mill Creeks Watershed Assessment

Funding provided by the Rural Investment Fund,  
Resource Assistance for Rural Environments,  
SumcoUSA,  
Oregon Watershed Enhancement Board,  
and the U.S. National Oceanic and Atmospheric  
Administration

# Pringle, Glenn–Gibson, Claggett and Mill Creeks Watershed Assessment

January 2002

Prepared by  
**Lisa Hemesath and  
Tina Nunez**

Formatted by  
**Bob Roth and  
Crystal Burgoyne**

Edited by  
**Cameron La Follette**

for the  
**Greater Salem-Keizer Area Watershed Councils**

## 1 - Introduction and Purpose of this Assessment

|                                                                         |     |
|-------------------------------------------------------------------------|-----|
| Purpose of this Assessment .....                                        | 1-1 |
| Methods .....                                                           | 1-2 |
| Geographic Information Systems (GIS) .....                              | 1-2 |
| Public Participation .....                                              | 1-3 |
| Members of the Intercouncil Watershed Assessment Committee (IWAC) ..... | 1-3 |
| Additional Reviewers of the Assessment .....                            | 1-4 |
| Acknowledgements.....                                                   | 1-4 |

## 2 - Overview of Watersheds

|                                         |     |
|-----------------------------------------|-----|
| List of Tables and Maps                 |     |
| Location.....                           | 2-1 |
| Population/Land Ownership/Land Use..... | 2-2 |
| Climate .....                           | 2-2 |
| Topography .....                        | 2-3 |
| Geology and Soils .....                 | 2-3 |
| Vegetation.....                         | 2-4 |
| Agriculture .....                       | 2-6 |
| References .....                        | 2-7 |

## 3 - Historical Conditions

|                                          |      |
|------------------------------------------|------|
| List of Figures and Tables               |      |
| Introduction And Methodology.....        | 3-1  |
| Pringle Creek Watershed .....            | 3-1  |
| History of Pringle Creek Watershed ..... | 3-1  |
| References .....                         | 3-52 |
| Glenn-Gibson Watershed .....             | 3-61 |
| History of Glenn-Gibson Watershed.....   | 3-61 |
| References .....                         | 3-67 |
| Claggett Creek Watershed .....           | 3-69 |
| History of Claggett Creek Watershed..... | 3-69 |
| References .....                         | 3-79 |
| Mill Creek Watershed .....               | 3-81 |
| History of Mill Creek Watershed .....    | 3-81 |
| References .....                         | 3-97 |

## 4 - Channel Modifications

|                                                                              |      |
|------------------------------------------------------------------------------|------|
| List of Tables                                                               |      |
| Introduction.....                                                            | 4-1  |
| Data Sources .....                                                           | 4-1  |
| Types of Channel Modifications and Their Extent in the Four Watersheds ..... | 4-2  |
| Stream Channelization and Bank Armoring.....                                 | 4-2  |
| Drainage Ditches and Flood Control Structures .....                          | 4-2  |
| Dams, Weirs and Reservoirs .....                                             | 4-3  |
| Stream Cleaning and the Removal of Large Woody Debris.....                   | 4-4  |
| Roads Within Floodplains .....                                               | 4-5  |
| Construction of Culverts, Pipes, and Bridges.....                            | 4-5  |
| Sand and Gravel Mining.....                                                  | 4-6  |
| General Channel Modifications .....                                          | 4-6  |
| Negative Results of Channel Modifications .....                              | 4-7  |
| Channel Modifications and Fish and Wildlife.....                             | 4-8  |
| Historic Conditions and Modifications .....                                  | 4-10 |
| Summary.....                                                                 | 4-10 |
| Recommendations .....                                                        | 4-12 |
| References .....                                                             | 4-14 |

## 5 - Hydrology

|                                                     |      |
|-----------------------------------------------------|------|
| List of Figures, Tables, and Maps                   |      |
| Introduction.....                                   | 5-1  |
| Data Sources .....                                  | 5-1  |
| Hydrologic Cycle.....                               | 5-1  |
| Why Streamflow is Important for Salmonids .....     | 5-2  |
| Local Climate.....                                  | 5-3  |
| Concept Of Flood Frequency .....                    | 5-4  |
| Hydrologic Features of the Watersheds.....          | 5-7  |
| Pringle Creek .....                                 | 5-7  |
| Glenn and Gibson Creeks .....                       | 5-8  |
| Claggett Creek.....                                 | 5-8  |
| Mill and Battle Creeks .....                        | 5-9  |
| Effects of Land Use on Hydrology.....               | 5-11 |
| Impervious Surfaces .....                           | 5-12 |
| Effects of Water Use on Hydrology .....             | 5-20 |
| Water Rights and Water Use .....                    | 5-21 |
| Stormwater Management in an Urban Environment ..... | 5-30 |
| Salem's Stormwater Infrastructure.....              | 5-30 |
| City of Salem's Stormwater Master Plan.....         | 5-32 |
| Summary.....                                        | 5-38 |
| Recommendations .....                               | 5-40 |
| References .....                                    | 5-43 |

## 6 - Riparian and Wetland Habitat

|                                                        |      |
|--------------------------------------------------------|------|
| List of Figures, Tables, and Maps                      |      |
| Introduction.....                                      | 6-1  |
| Data sources .....                                     | 6-1  |
| What is a Riparian Area?.....                          | 6-2  |
| Ecological Benefits of Riparian Areas.....             | 6-4  |
| Water Quality .....                                    | 6-4  |
| Flood Management.....                                  | 6-4  |
| Thermal Regulation .....                               | 6-5  |
| Wildlife Habitat.....                                  | 6-5  |
| Adequate Riparian Vegetation for Shade on Streams..... | 6-6  |
| Watershed Summaries .....                              | 6-7  |
| Pringle Creek .....                                    | 6-7  |
| Glenn-Gibson.....                                      | 6-8  |
| Claggett Creek.....                                    | 6-8  |
| Mill Creek.....                                        | 6-9  |
| Other Riparian Studies .....                           | 6-10 |
| Pringle Creek .....                                    | 6-10 |
| Mill Creek.....                                        | 6-11 |
| Canopy Cover Study.....                                | 6-13 |
| Effects of Urbanization on Riparian Areas .....        | 6-13 |
| Riparian Protection.....                               | 6-14 |
| What are Wetlands? .....                               | 6-16 |
| Ecological Benefits of Wetlands .....                  | 6-17 |
| Types of Wetlands Found in Local Watersheds .....      | 6-18 |
| Location of Wetlands .....                             | 6-20 |
| Salem-Keizer Local Wetland Inventory.....              | 6-20 |
| Watershed Summaries of Wetland Locations .....         | 6-23 |
| Pringle Creek .....                                    | 6-23 |

| Pringle Creek .....                                    | 6-28 |
| Glenn-Gibson Creek .....                               | 6-29 |
| Claggett Creek.....                                    | 6-30 |
| Mill Creek.....                                        | 6-32 |
| Potential Sites for Wetland Restoration .....          | 6-38 |

## **6 - Riparian and Wetland Habitat (continued)**

|                           |      |
|---------------------------|------|
| Watershed Summaries ..... | 6-38 |
| Pringle.....              | 6-38 |
| Glenn-Gibson.....         | 6-39 |
| Claggett .....            | 6-39 |
| Mill .....                | 6-40 |
| Summary.....              | 6-41 |
| Recommendations .....     | 6-43 |
| References .....          | 6-46 |

## **7 - Sediment Sources**

|                                           |      |
|-------------------------------------------|------|
| List of Tables and Maps                   |      |
| Introduction.....                         | 7-1  |
| Data Sources .....                        | 7-2  |
| Two Aspects of Erosion .....              | 7-2  |
| Importance of Sediments to Salmonids..... | 7-2  |
| Erosion Factors.....                      | 7-3  |
| Soil Characteristics.....                 | 7-3  |
| Vegetation .....                          | 7-4  |
| Topography .....                          | 7-4  |
| Climate.....                              | 7-5  |
| Sediment Sources.....                     | 7-5  |
| Agricultural Runoff .....                 | 7-5  |
| Urban Runoff .....                        | 7-8  |
| Channel Erosion .....                     | 7-12 |
| Landslide Hazard Areas .....              | 7-13 |
| Summary.....                              | 7-15 |
| Recommendations .....                     | 7-16 |
| References .....                          | 7-18 |

## **8 - Water Quality**

|                               |     |
|-------------------------------|-----|
| List of Figures, Tables, Maps |     |
| Introduction.....             | 8-1 |
| Data Sources .....            | 8-1 |
| Water Quality Parameters..... | 8-2 |
| Temperature .....             | 8-2 |
| Dissolved Oxygen.....         | 8-2 |
| Sediments .....               | 8-6 |
| pH Levels .....               | 8-7 |
| Nutrients .....               | 8-7 |
| Toxic Substances.....         | 8-8 |

## 8- Water Quality (continued)

|                                                               |      |
|---------------------------------------------------------------|------|
| Oil – A Common Toxic Substance in Urban Streams .....         | 8-10 |
| Pesticides – Urban and Rural Contaminants .....               | 8-10 |
| Fecal Coliform Bacteria .....                                 | 8-11 |
| Macroinvertebrates .....                                      | 8-12 |
| The 303(d) List and Stream Health .....                       | 8-12 |
| Sources of Pollution: Point Source and Non-point Source ..... | 8-15 |
| Regulation of Point Source Pollution .....                    | 8-15 |
| Non-point Source of Pollution .....                           | 8-24 |
| Past Studies on Stormwater and Surface Water Quality .....    | 8-25 |
| Section 208 Urban Storm Water Runoff Plan: 1975-1977 .....    | 8-25 |
| USGS Study on Stormwater: 1979-1981 .....                     | 8-26 |
